Loans and Rentals of Camrose Ski Club Property Policy

Effective Date: November 6, 2006

Date of Revisions: November 24, 2023

Purpose: To provide for stewardship and accountability of all property (facilities, equipment, machinery or supplies) entrusted to and owned by CSC.

1. All loans and rentals of subject material do not transfer ownership and all items shall remain the property of the CSC.
2. No warranties, guarantees or insurance is supplied or implied with the rental or loan.
3. A director or officer of the CSC board shall manage each rental, loan and return.
4. All rental, loan and return transactions must be documented and signed by an authorized CSC official and the borrower/renter. Forms shall be retained in the CSC records for a period of 5 years. CSC will produce appropriate records as required by authorized auditors of funding agencies, government, or law enforcement agencies.
5. CSC shall maintain a schedule of fees for rental of property. The fees are determined and applied to offset the operating, maintenance and replacement costs of property. The fees shall be applied consistently and fairly to all. Generally the fees are non-negotiable and non-refundable. The CSC board must approve any variations to the fees. Loans or rentals of property not listed in the schedule shall be considered and approved individually by the board.
6. All loss or damage to property during a rental or loan shall be reported to the CSC board. The CSC board shall review the situation and determine the most appropriate remedy. Generally, the expectation is that the property is returned to CSC in a condition equal to that received. In the event of damage or loss the renter may be required to repair, restore or replace the property or share in that cost.
